PROFILE

Engineering graduate with strong foundation in **data processing, data structuring, and quantitative analysis**. Experienced in handling **multivariate and time-series datasets**, including data cleaning, transformation, and trend analysis using Excel, **Python (Pandas)**, and **SQL**. Able to translate raw data into **actionable insights** and build **data visualizations using Power BI** to support decision-making.

EDUCATION

Pancasila University

Bachelor of Engineering (Civil Engineering)

Jakarta, Indonesia

Graduated: 2026

Final Project: Data-Driven Traffic Analysis (Multivariate Time-Series Dataset)

- Structured multivariate dataset across **2 road directions, 2 observation days, 3 time segments, and 15-minute intervals**.
- Processed data with multiple variables including **3 vehicle categories** and **5 side friction factors**.
- Performed **data cleaning, validation, and transformation** using Microsoft Excel.
- Conducted **time-series aggregation and trend analysis** to identify peak patterns and anomalies.
- Generated insights to support **data-driven decision making**.

EXPERIENCE

PT. Biro Arsitek dan Insinjur Sangkuriang

Construction Management Intern

Bogor, Indonesia

Aug 2023 - Oct 2023

- Analyzed project data to support **progress tracking and performance monitoring**.
- Monitored daily metrics to identify **delays, inefficiencies, and anomalies**.
- Structured and maintained project data for **reporting and analysis purposes**.
- Documented more than 3 technical issues using systematic **data recording and tracking**.

SKILLS

- Data Analysis:** Data Cleaning, Data Transformation, Exploratory Data Analysis (EDA), Time-Series Analysis, Data Interpretation
- Tools:** Microsoft Excel (Advanced), Google Sheets, Power BI
- Programming:** Python (Pandas, NumPy), SQL
- Analytical:** Problem Solving, Critical Thinking, Pattern Recognition
- Soft Skills:** Attention to Detail, Time Management, Teamwork
